Water Resource Management Conference – Call for Vendors
Tuesday, April 18, 2006
Holiday Inn, Boxborough, MA

Dear Exhibitor:

The Massachusetts Executive Office of Environmental Affairs, Office of Technical Assistance, Metropolitan Area Planning Council, and the I-495 Metrowest Corridor Partnership announce a Water Resource Management conference to provide the tools and strategies for both **Industries and Municipalities** to address increasing water demands. Additional sponsors include the Associated Industries of Massachusetts, the Environmental Business Council, the Massachusetts Municipal Association, and the Massachusetts Water Works Association. We are expecting attendees from municipal government including water superintendents, DPW Directors, Planners, and Board of Selectmen, as well as industry representatives including facility managers, pretreatment managers, and EHS directors.

The workshop sessions will help industries maintain a flexible manufacturing operation as water resources become less available and costs of wastewater treatment increase. The sessions will also help municipalities meet the increasing demand on their treatment facilities.

To complement these sessions, we are seeking exhibitors to display the latest products and services in water conservation for industrial and commercial processes and municipal operations and planning. Attendees will have multiple opportunities to visit the exhibitors throughout the day.

If you are interested in participating please review the enclosed conference information and complete the exhibitor registration forms. **To assure your firm a space at the conference, please return the Exhibit Space Application, signed Exhibit Terms Agreement and payment by Friday, March 10, 2006.**

For more information about the workshop please contact me directly at 617-626-1068. We look forward to your participation in the upcoming Water Resource Management Conference.

Sincerely,

Susan Lanza
Program Coordinator
